▼ The Gallows bring more fear. And its optics are pretty good. A gunshot to the head. And boom it is over. At the gallows, you have a minute or 2 to think about what you did to the Consitution. The Ultimate way is Helicopter tho'. It is very sad to be even kidding about something like this. So many men have shed their blood to protect us from Evil Doers. And yet here we are with Evil Doers trying to do away with us.

▼ Would be pretty epic if people got together to make a small set of gallows outside SCOTUS or the Capitol
